## SPRING REMODELERS SHOWCASE 2018

DESIGNED BY JOLYNN JOHNSON, CMKBD, CAPS  
/ JOLYNN@CRYSTALKITCHEN.COM

Be surprised walking into a cozy 1986 mid-sized home and look out onto the wooded panoramic view. CK+B redefined the whole home. The clean-lined traditional space warms up with a modernized vaulted ceiling, expansive windows, dramatic lighting and bold paint colors. Remodeled areas include an eat-in kitchen/hearth room and three refreshed bathrooms with unique tile designs and spa amenities of a steam shower and sauna, heated floors and

## DRAMATIC BATHROOM MAKEOVER

**DESIGNED BY MARY MANEY, CKD, ASID** / [MARY@CRYSTALKITCHEN.COM](mailto:MARY@CRYSTALKITCHEN.COM)

The existing footprint of the bathroom remained the same, but with all new finishes it completely changes the look. The new contemporary styled bathroom incorporates rock tile across the vanity backsplash into the shower and under the floating vanity to add texture and interest to the space. A heated floor & towel rack keep this room toasty warm. Sculptural Manhandle pulls add an artistic touch, while the LED lit mirrors give better lighting for grooming in the morning. In the shower and tub, the crisp lines of the plumbing fixtures evoke a modern sophistication. Recessed niches help keep the tub area and shower clean and organized. Grab bars in the shower and tub add safety for the homeowners as they age in place. ■

## MIDCENTURY MODERNIZED

**DESIGNED BY CHELSEY PREUSS**  
/ [CHELSEY@CRYSTALKITCHEN.COM](mailto:CHELSEY@CRYSTALKITCHEN.COM)

When Lisa told me she loved midcentury modern design, we instantly connected! I love bringing homes up-to-date while keeping a sense of midcentury style. This kitchen needed an improved layout and, by simply moving the refrigerator, we achieved a more open space with added storage, including a banquette for sipping morning coffee. Warm wood tones are true to the style. The cabinetry, paired with creamy Cambria countertops and gold hardware, creates a warm and inviting space. ■

## COUNTRY ESTATE

DESIGNED BY BARBARA BIRCHER, CKD / BARB@CRYSTALKITCHEN.COM

This kitchen is a perfect example of why appliance placement is so important. With the appliances stacked together in the corner of the kitchen, it created a tight and congested work triangle. The new homeowner liked the wide planked wood floor and the color of the existing cabinetry, but the quality needed upgrading. Relocating the refrigerator opened up the kitchen and added much-needed counter and storage space by the sink. The beautiful white kitchen cabinetry surrounds a stunning blue island with a 2-½" thick Blue Flower granite chiseled-edge countertop. ■

## LAKE NOKOMIS TUDOR

DESIGNED BY CAROL KORNAK  
/ CAROL@CRYSTALKITCHEN.COM

The kitchen in this beautiful 1934 home had been renovated, but lacked flow and adequate storage for the family of five. The Viking range was trapped in an alcove, with little counter space on the sides. By relocating the wall oven, the range wall is a functional area featuring two niches, an accessory rail and dramatic tile. The new grey-stained Crystal cabinets in hickory and cherry complement the existing Colorado stone floors. Careful selection of materials and placement blends existing and new, while respecting the vintage aspect of the home. ■
